

Customisable Agriculture Carry Case

Carry case can hold up to 7 meters, with 9 different parameters to choose from

Employing the same test principles as laboratory electrodes, the LAQUA^{twin} compact meters provide a reliable and accurate measurement. Select the meters that best suit your application from our 14 colourful models.

pH – 3 Models

Potassium Ion

ORP

**Conductivity
– 3 Models**

Calcium Ion

Salt – 2 Models

Sodium Ion

**Ionized Calcium
– for bovine
hypocalcaemia**

Fluoride

Agriculture

Livestock

Press to remove

Pressing the sensor part will lift the meter up from the foam, making it easy to remove the meter from the case.

Removable inlays

Ensuring a good presentation even if all 7 meters slots are not used.

Flexibility

The case has removable cut out inlays so that the top section can be customised to suit your needs – Storage for more solutions or any other accessories (as pictured above). **Please note that the kit does not come supplied with these parts.**
