

Glassware Drying Oven

(Ambient +5°C to 80°C)

LABEC Glassware Drying Oven

is manufactured in Australia with high quality stainless steel for easy maintenance and excellent durability with double sliding glass doors for convenient accessibility.

An inconel element inside the chamber and fan forced convection heating circulates the warm air inside the chamber providing fast and efficient drying with a cool to touch exterior surface.

Available in a range of sizes, suitable for benchtops and general laboratories. Custom sizes are also available.

Temperature

The ovens are easy to operate with a straightforward thermostat temperature control and have a temperature range of ambient +5°C to 80°C.

Additional options

To suit your requirements the addition of options such as extra shelving, a timer and HEPA filters are also available.

Standard features include:

- RCD/ ELB (earth leakage breaker).
- Stainless Steel exterior.
- Sliding Glass Doors.
- Adjustable/removable perforated shelving.
